PETITION TO WITHDRAW HOLDING OF ABANDONMENT
37 C.F.R. § 1.181; 37 C.F.R. § 1.8(b)

Sir:

Applicants recently received notice from the Office of Initial Patent Examination (OIPE) that the above-noted patent application was abandoned because Applicants allegedly failed to respond to a Notice to File Corrected Application Papers. Pursuant to 37 C.F.R. § 1.8(b), Applicants respectfully request withdrawal of the holding of abandonment and restoration of the application to active status.

The following documents are enclosed in support of this petition:

I. Copy of Notice to File Corrected Application Papers (the "Correction Notice") mailed January 17, 2002.

II. Complete copy of corrected application papers submitted February 13, 2002, using the "Certificate of Mailing" procedure. Corrected application papers include (i) a return receipt postcard itemizing submitted items, (ii) a transmittal sheet including certificate of mailing

and itemizing the enclosed corrected drawings, (iii) a copy of the Correction Notice and (iv) a complete set of corrected drawings (10 figures on 8 sheets).

III. Copy of Request for Status of Application submitted on June 20, 2003.

IV. Copy of notice from OIPE indicating that the application is abandoned.

Facts

1. After filing the application, Applicants' attorney received the Correction Notice, which was mailed on January 17, 2002, and set a 2-month period for response (enclosed document I).

2. On February 13, 2002, well within the period allowed for response, Applicant's attorney submitted a set of corrected drawings in response to the Correction Notice under the "Certificate of Mailing" provisions of 37 C.F.R. § 1.8(a) (enclosed document II). Applicants' undersigned attorney personally reviewed and signed the response and provided it to Ms. Breigh Dippman, who was then a member of the staff, for mailing. Procedure in our office dictated that Ms. Dippman sign the Certificate of Mailing and prepare the documents for mailing. Near the end of each business day, Ms. Dippman personally took that day's accumulated correspondence to the post office for mailing. At the end of the day, Ms. Dippman's supervisor checked to confirm that all correspondence for the day had been mailed. Office procedure was followed in this case: the certificate of mailing was signed and dated and the corrected application papers (enclosed document II) were timely mailed by Ms. Dippman on the date stated in the Certificate of Mailing.

3. An itemized return-receipt postcard was enclosed with the response. Applicant's attorney never received the return receipt postcard, indicating that the corrected application papers apparently were not received by the USPTO. Applicants' attorney notes that in early 2002, when the response was mailed, there were various anthrax-related postal emergencies, and suggests that perhaps that explains why the submitted documents were not received at the USPTO.

4. On June 20, 2003, Applicants submitted a request for information on the status of the application (enclosed document III).

5 In response to the request for status, Applicants received a notice from the OIPE (enclosed document IV) indicating that a Notice of Abandonment was forthcoming. No Notice of Abandonment has yet been received.

6. Only after receipt of the OIPE notice did Applicants' attorney learn that the USPTO had not received the corrected application papers. Applicants' attorney did not notice that the return postcard submitted with the corrected application papers had never been received until reviewing the file after receiving the OIPE notice.

Conclusion

In view of the above facts and the enclosed documents, Applicants have fulfilled the conditions set forth in 37 C.F.R. § 1.8(b) and respectfully request that the holding of abandonment be removed and that the above-noted application be returned to active status.
